100 年度「自行車道整體路網規劃建設計畫」評核結果出爐

Renovation Underway for the National Sports Training Center

Through great dedication and work from the Sports Affairs Council (SAC) of the Executive Yuan, the highly anticipated National Sports Training Center (NSTC) finally began its renovation projects for its training stadiums. The first phase of the NSTC renovation project was divided into indoor and outdoor training sections. In particular, the outdoor training section that comprised of renovations of the baseball field, softball field and archery range had been outsourced. The groundbreaking ceremony was held on 21 December 2011. In addition, there were two buildings for integrated training (skills and ball games) in the indoor training section. In particular, the skills stadium encompassed gymnastics, wushu, boxing, wrestling, fencing, karate, judo, taekwondo and weightlifting, and the ball stadium

encompassed basketball, volleyball, bowling and table tennis, totaling 15 sports altogether. These buildings incorporate international standards and will provide excellent training environment for the national team elites. Currently, detailed evaluations are in progress.

The former state of the NSTC was the 1976-established Zuoying Training Center, which bears the responsibility of training national elites and implementing long-term development of key sports and policies. After more than 30 years had passed, certain portions of the Center were in need of renewal. It is hoped that through this renovation plan, competitive sports arenas and venues would be constructed that embrace Taiwan's uniqueness and design styles. A comprehensive training facility that encompasses information science and complete administrative support would allow Taiwan's sports development mechanism to fall in line with international standards. This will further the nurturing of outstanding sports talents and raise the country's overall international competitiveness.

A budget of NT\$2.4 billion was set aside for the renovation of the NSTC in 2009 by the Executive Yuan. The outdoor training section was overseen by the NSTC itself, whereas the indoor training section was delegated to the Construction and Planning Agency, Ministry of the Interior (CPAMI), whose role was to construct a training center that would demonstrate the grandness and substance of the nation. Under close collaboration between the SAC and the CPAMI, the progress was two months ahead of schedule. In 2012, invitation to tender for the construction projects will proceed, and the project is schedule to be completed by the year 2014.

國家運動訓練中心即將動工興建

體育界引頸期待的國家運動訓練中心(以下簡稱國訓中心)，在體委會的努力下，終於即將展開訓練場館的興整建工程。國訓中心(第一期)工程開發區域分為「室內訓練區」及「戶外訓練區」。其中「戶外訓練區」為「棒球場、壘球場及射箭場整地植栽工程」目前已完成發包，在 100 年 12 月 21 日辦理動土典禮。另外在「室內訓練區」預計興建「綜合集訓館(技擊館、球類館)」計 2 棟，其中技擊館(含體操、武術、拳擊、角力、擊劍、空手道、柔道、跆拳道、舉重)與球類館(含籃球、排球、羽球、保齡球、桌球)等計 15 項運動項目，係以符合國際化標準進行設計，以提供國內菁英選手優質訓練環境，目前也已進入細部設計審查階段。

前身為民國 65 年成立之「左營訓練中心」，擔負我國菁英運動選手訓練及長期培養重點發展項目的任務，成立迄今已逾三十餘年，其相關場館設施都已達一定年限，希望透過本次整建計畫興建具有台灣地域特色及建築設計風格的專業體育競技場地，以建構選手培訓、資訊科研及行政支援之完善訓練環境，使我國運動培訓機制與國際接軌，達成培育國家優秀運動人才，並提升我國選手整體國際競技實力。

行政院於 98 年匡列 24 億元辦理國訓中心的整建，「戶外訓練區」係由國訓中心以自辦工程方式辦理「棒球場、壘球場及射箭場整地植栽工程」，「室內訓練區」係由體委會委託內政部營建署代辦，藉由營建署之工程專業建設符合國際標準的運動場館，並展現國家級訓練中心的氣度。在體委會及營建署通力合作下，比原訂進度提前了兩個月，即將於 101 年進入工程招標階段，預訂於 103 年完工。

2011 Sports City Investigation

The Sports Island Establishment Project initiated by the SAC is gradually coming to fruition. Investigations showed that the percentage of population engaging in regular exercise in 2011 increased by 1.7% to 27.8%, signaling another historical high.

Take “regular exercise” for instance, the percentage rose from 12.8% in 2003 to 27.8% in 2011. Within just eight years, more than 15.0% of the population engages in regular exercise, which signifies that more and more people had developed the habit of exercising

regularly.

Pertaining to the details of some of the accomplishments, the Sports Fitness Incentive Plan aimed to instill the habit of exercising regularly in people; as of 2010, the target of increasing the percentage of people who exercise regularly to 26.0% in

four years was accomplished. This year, another 1.7% was added to the result, raising the total to 27.8%. Indicators in the regular exercise evaluations such as “exercise time” and “frequency” both increased, demonstrating the effectiveness of such plans.

Further, investigation results of the Sports Fun Express Plan showed that 46.9% of interviewees received sports related information, which was a 10.6% increase as compared to the previous year. Thirdly, pertaining to the investigation results of the Sports Club Establishment Counseling Plan, 18.5% of the people who exercise had joined some sort of sports association, which was a 1.6% increase. More and more indications showed that people shifted from exercising individually to participating in group exercises.

Investigation results from the Sports LOHAS Island Promotion Plan showed that under the more frequent sports items, percentage of people engaging in outdoor sports (such as walking, cycling, mountain-climbing, jogging, brisk walking, etc.) increased for three years in a row to this year’s peak of 81.2%; and people who engaged in sports at outdoor locations increased from 86.5% in 2009 to 87.2% this year. These results showed that more people embrace the nature by coming out of their homes.

In addition, based on the ranking from investigation results of The Most Favored Sports City, results indicated that Taitung County ranked first (a total score of 18) in group A, followed by Lienchiang County, Taipei City and Yilan County (a total score of 17). These scores were based on four indicators such as regular exercise, participation in sports clubs, watching sports events and BMI ratio.

In the area of friendly sports environment, eight indicators were used such as sufficient locations for exercise, satisfaction rate for sports facilities, transportation convenience, frequency of sports events, participation rate and satisfaction, frequency of receiving sports news, and emphasis on sports events by the county/city mayors. The combined results indicated that Kinmen County, Lienchiang County, Penghu County, Taitung County, Chiayi City and Hualien County scored between 37 and 40.

100 年運動城市調查

體委會「打造運動島」計畫成效逐漸顯現，調查結果發現，100年規律運動人口比例增加1.7%，達到27.8%，再創新高。

觀察整體運動人口比例，「規律運動」比例，從92年12.8%，至100年達27.8%，八年之內，規律運動人口共增加15.0%，顯示愈來愈多的國人逐漸養成規律運動習慣。

就細項討論運動島的成效，如「運動健身激勵專案」主要希望培養規律運動習慣，我國的規律運動人口比例在99年已達到四年成長至26.0%的目標，今年再增1.7個百分點，規律運動人口比例提升至27.8%，且「運動時間」和「運動次數」兩項規律運動指標皆同步上揚，顯示此專案頗具成效。

其次，「運動樂趣快易通專案」，調查結果顯示46.9%的受訪者表示有接收到運動相關訊息，與前一年度比較，大幅提高10.6%。第三，有關「運動社團建置輔導專案」，調查結果顯示，平常有運動的人當中，18.5%目前有參加運動社團，與99年比較，共增加1.6個百分點，顯示愈來愈多民眾已從「個別型」運動人口成為「團體型」的運動人口。

而「運動樂活島推廣專案」，調查結果發現，「最常從事的運動項目」，從事「戶外運動」（包括散步、騎腳踏車、爬山、慢跑、健走等）的比例連續三年不斷上升，今年調查比例已達81.2%，且在「戶外」做運動的比例也逐年提高，從98年的86.5%提高至今年的87.2%，顯見有越多民眾走向戶外，擁抱大自然。

另外，本次調查「最喜歡運動城市」的排行，綜合四項指標做考量，如規律運動、有參加社團、收看體育活動及BMI過重或肥胖的比例等，調查結果發現，臺東縣以十八分名列A組第一名，名單中尚有連江縣、臺北市及宜蘭縣，得分為十七分。

在運動環境友善度的評比上，綜合八項指標，如運動場所足夠度、運動場所設施滿意度、運動場所交通便利度、舉辦體育活動頻率、參加體育活動的比例及其滿意度、接收體育訊息的頻率，縣市長重視民眾運動等。調查結果得知，金門縣、連江縣、澎湖縣、臺東縣、嘉義市、花蓮縣等，總分在三十七分至四十分，位居前段班。

National Road Run at Daai Community: Permanent Housing for Morakot Victims

As directed by the SAC, the Chinese Taipei University Sports Federation (CTUSF) organized the National Road Run “Love 100%” event. With nearly 2,000 participants, the race commenced at the Hope Plaza of Daai Community in Shanlin District of Kaohsiung City on December 24th, 2011.

Along the way, demonstrations of permanent buildings were clearly visible. SAC Minister Tai Hsia-ling graced the occasion personally, and hoped that through the hosting of this vibrant road run event, the local residents would be encouraged and more people could understand the important achievements accomplished thus far with regards to reconstruction for the victims.

A Daai Market was organized for the residents, which prepared a myriad of delicious local delights, agricultural products and cultural workshops. Residents and road race participants were encouraged to stroll around the market to experience the passion for helping them. In addition, the CTUSF established the Sports Star Auction Section which included the 2011 World Games female basketball team (who won the silver medal), and products donated by baseball stars. All income from these charitable events would contribute toward community reconstruction fund.

Commissioning of the Chinese Taipei School Sport Federation in the Participation of ISF Events

Since 2000, after securing an associate membership for the Chinese Taipei School Sport Federation (CTSSF) in the International School Sport Federation (ISF), the SAC has been actively expanding the nation's international presence, with the hope that our youth could widen their vision and connect with the international arena through multifarious international cultural and sports exchanges, thereby developing their world citizenship mindset. The SAC continues to aid the CTSSF in participating in a myriad of international competitions hosted by the ISF. In 2011, the SAC commissioned the CTSSF in participating in four ISF championships in athletics, tennis, swimming and female basketball at Poland, France, Malta

and China. The Chinese Taipei delegation won an impressive 1 gold, 4 silver and 3 bronze medals. Through these experiences, not only do our young athletes increase their international exposure and experience different cultural ambiances, but simultaneously the event also enhances our nation's visibility in the international arena.

Through the years the SAC is diligently aiding the CTSSF in joining the various ISF events, as well as fulfilling the responsibilities and duties as a diligent member. Toward the end of 2011, Taiwan successfully secured the hosting rights of the 2017 Summer Universiade. In addition, the CTSSF was also awarded the hosting rights for the 2014 ISF World Schools Badminton Championship. All preparatory works are in progress.

To further cultivate the arena for young athletes, the SAC continue to commission the CTSSF in sending out delegations to participate in the respective ISF championships for tennis, badminton and volleyball. In addition, to better prepare for the 2014 ISF World Schools Badminton Championship, the president and secretary general of the ISF and vice-president of the Asian School Sport Federation (ASSF) were invited to visit Taiwan. As of now, the CTSSF is already making way for the selection and training of athletes for the various ISF championships. It is hoped that through steady contact and interaction with the ISF, our nation will soon be granted a full membership in the ISF.

SAC Drafts the Management Guidelines for Mountain Guide Certification

To improve the quality of mountain guides and to ensure the public's safety while engaging in mountaineering activities, the SAC completed the Management Guidelines for Mountain Guide Certification draft. The guidelines divide mountain guides into two categories (mountaineering guides and climbing guide). Each guide has strict and precise definitions concerning its responsibilities, qualifications and examination subjects.

Currently, mountaineering has become a popular leisure activity, with growing participation from the general public. Nonetheless, since the announcement of the Regulations for Certification of Mountaineering Guides on 1st July 1998, market demands have outgrown supplies. As of today, only 193 certificates were awarded. Due to the crucial impact that the quality and quantity of mountaineering guides have on the development and promotion of the sport, the certification process is amended to incorporate group certification, supplemented by the integration of professional associations that can cater to market demands. Five main concepts are infused in the drafting of the new guidelines, listed as follows:

1. Just administration to build trust:

Promote legalization of professional certification to build public trust and to enhance development operations and management of the public sector.

2. Policies guide and the people implements:

Certification process is the central policy component. The SAC will authenticate and authorize qualified associations, which will be endowed with four years to process examination matters, ensuring unanimous standards.

3. No limited targets for certification:

Establish reasonable application and evaluation processes. Civic organizations receive SAC accreditation with autonomy in its implementation of the SAC guidelines. Counseling is provided which fully demonstrates the effectiveness of the SAC's policies.

4. Save budget and improve efficiency:

Previous commissioning methods stretch budget burden and incur unnecessary costs in

the procurement process. The proposed guidelines ensure a public accreditation process that allows associations to charge normative examination and certification fees. This will ensure better compliance from associations and better quality guides.

5. Market exit mechanism and supervision to ensure quality:

Even though the accreditation period is four years, there are clear conditions for suspension. This will ensure that supervision is effective and quality can be maintained.

提升山域嚮導素質，保障民眾登山活動安全 體委會訂定「山域嚮導授證管理辦法」

體委會為提升登山嚮導人員之素質，增加民眾登山活動之安全保障，完成「山域嚮導授證管理辦法」草案，規劃將山域嚮導員區分二類（登山嚮導及攀登嚮導），各類執行權責範圍、申請資格、檢定科目等，均有明確嚴格規範。

目前健行登山運動，已日益成為民眾普遍參與之戶外休閒活動，惟自 87 年 7 月 1 日發布「登山嚮導員授證辦法」以來，無法與市場需求結合，致報名人數有限，目前通過合格證照數才 193 張。由於嚮導人員的素質與數量，對登山運動的推展有相當重要的影響，爰修正授證方式，採授證團體認可制，由專業團體結合市場需求辦理授證。該辦法之研訂，主要採取下列五項意旨：

一、依法行政、建立信賴：

推動專業證照法制化，以利民眾信賴、公部門運用管理及發展需要。

二、政策領航、民間執行：

採用「認證」之政策工具，由體委會審查合格之團體予認可後，授予四年期限辦理檢定授證之重要事項，可達於一致化標準。

三、認證對象，不限單一團體：

建立合理申辦及審認程序，符合條件之民間團體得取得體委會認證，依規定「檢定一核頒證照」，自行管理，致各團體有發揮之舞台並納入輔導，擴充並彰顯體委會施政績效。

四、節省委辦經費、增進效能：

為免過去所採「委辦」方式衍生經費負擔、採購程序勞費；本案提出公權力認證機制，採使用者負擔由認可團體依規定標準收取檢定費、授證費，其意願高，兼顧促使嚮導證照質量之提升。

五、退場機制、督促確保證照品質：

雖有認可期限 4 年，惟明定受認可後之停權狀況，有利體委會輔導，藉以督促確保證照品質。

SAC Establishes Operation Visitation Mechanism to Tend to Stadium Usage Effectiveness

To tend to stadium usage effectiveness, the Sports Affairs Council (SAC) specifically drafted the “Operation Supervision and Evaluation Plan for Government Subsidized

Constructed (Renovated) Stadiums”, which came into effect recently. It is hoped that through the supervision and on-site visitations of stadiums, as well as the training of personnel, the efficacy and service quality of local stadiums can be enhanced.

The SAC stated that in order to accomplish the goal of facilitating better recreational facilities to satisfy the multi-faceted demands of the general public, the Executive Yuan-approved Improving Public Sports Environment Plan was used as a blueprint to advance the construction and upgrade of National Sports Centers, sports parks and other sports facilities. The visitation mechanism of stadiums was amended at the end of last month to take into consideration the usage effectiveness of future constructed (renovated) stadiums, which further facilitate the collaboration with local governments in tending to the usage of local public stadiums.

In accordance with the stipulations of the “Operation Supervision and Evaluation Plan for Government Subsidized Constructed (Renovated) Stadiums”, the SAC and the local government will respectively form an evaluation team and visitation team to conduct yearly visitation matters. At least 20% of all direct municipalities, counties, cities and townships should be visited annually. Heads of subsidized agencies are cordially invited to tend to the operation management issues of constructed (renovated) stadiums, and conduct on-site visitations on a case by case basis. In order to ensure actual implementation of the aforementioned plan, the SAC will request that all relevant local governments prepare documents regarding its visitations and relevant improvement suggestions on 10th June and 10th December of every year; those who fail to provide relevant visitation documents will in principle be temporarily disqualified for further subsidies.

In addition, the SAC has plans to strengthen the professional knowledge of operation personnel of the subsidized agencies. Besides the stadium planning design and construction evaluation seminars held earlier this February, a stadium operation maintenance seminar will be held in July/August. It is hoped that through the promotion of the integration of personnel training and stadium operation visitation mechanism, the usage efficiency of national stadiums could be enhanced.

為關心地方公立運動場館使用效益，體委會特修訂「補助地方政府興（整）建運動場館完成後營運管理督訪考核計畫」，並於日前正式發布實施，期透過與地方政府就興（整）建運動場館完工後之經營管理辦理督訪考核，與人員教育訓練，以提升各地方運動場館使用效益及服務品質。

體委會表示，為充實國內運動休閒設施，滿足民眾多元運動需求，目前依據行政院核定「改善國民運動環境計畫」推動補助地方興（整）建國民運動中心、運動公園及其他運動場館設施，並為兼顧未來場館興(整)建後之實際使用效益，特於上月底修訂本項營運督訪機制，俾會同地方政府共同關心公立運動場館使用效益。

依據體委會發布本項營運管理督訪考核計畫之規定，將由該會與地方政府分別成立考核小組及督訪小組每年辦理督訪事宜，且每一年度應至少分別就五分之一直轄市、縣市及鄉鎮市區辦理訪視，邀請受補助機關單位首長共同關心興（整）建運動場館完工後營運管理狀況，並擇案實地查訪。且為敦促地方政府落實本項督訪機制，該會要求地方政府應於每年 6 月 10 日及 12 月 10 日前將訪視紀錄及相關輔導改善資料函報備查，未辦理訪視或訪視紀錄未函報者，原則將暫不受理申請補助。

另外，體委會為了強化受補助單位場館興建及營運人員專業知能，除已於 2 月中旬舉辦運動場館規劃設計及工程施工查核兩場講習會外，亦規劃於今年度 7、8 月份辦理場館營運維護講習會，期透過結合人員教育訓練及前開營運督訪機制之推動，以逐步提升國內公立運動場館使用效益及場館。

Keynote speeches of the convention were presented by the IOC president Mr. Jacques Rogge, Olympic Council of Asia (OCA) president and newly appointed ANOC president H.E Sheikh Ahmad Al-Fahad Al-Sabah and LOGOC president Mr. Sebastian Coe. IOC president and OCA president expressed their hopes that “sport will remain autonomous and without political interferences”. National Blue Team Wins Community League Spring Series

The SAC has commissioned the Chinese Taipei Baseball Association in training

alternative servicemen baseball players since last December. This year's Spring Series saw the participation of alternative servicemen through a blue team and a white team. Both teams had several national players, and both teams made it to the semi-finals. The scenario of the wildcard legend came to life during the national blue team's emergence from the qualifying rounds. In the life-or-death battle with Taipower team, the blue team won 4-1, and claimed the Series title. Since the establishment of qualifying rounds for the Spring Series in 2006, the blue team was the first team ever to qualify through the wildcard round and ultimately claim the title, an unprecedented record. National team coach Wang Kuang-Hui mentioned: "It was indeed remarkable and only possible through the unity and morale of the team". Coach Wang also pointed out that by playing at the national team, players had no other burden and were free to add a remarkable page to the history of their lives. It was indeed a blessing for these baseball players, and a testament to the dedicated support of the government for baseball.

國訓藍隊勇奪社會甲組棒球春季聯賽冠軍

替代役棒球役男培訓於 100 年 12 月由體委會委請中華民國棒球協會辦理培訓，今年春季聯賽特別分成藍、白 2 隊出賽，2 隊陣中不乏國手級好手，此次賽事兩隊同時打進四強，其中從資格賽驚險搭上晉級列車的國訓藍隊，上演「外卡傳奇」，在與台灣電力公司隊的冠軍殊死戰中，以 4 比 1 擊敗台電稱王。春季聯賽自 95 年設立資格賽後，國訓藍隊是第一支以外卡晉級、最終拿下冠軍的隊伍，寫下空前紀錄，國訓隊總教練王光輝提到「這真的很不容易，全靠團隊凝聚力與士氣才能奪冠。」王總教練也指出，在國訓打球，心無旁騖，球員可以在這一年的役期中，為自己的棒球人生添加豐富色彩，這一切都是棒球員的福氣，也是政府對棒球運動投入的作為，球員都很珍惜。

First Phase of the National Sports Training Center Project – Invitation to Tender for the Construction of the Training Complex

The long-anticipated National Sports Training Center (NSTC) finally begins successive construction phases under the joint collaboration of the Sports Affairs Council of the Executive Yuan (SAC), Construction and Planning Agency, Ministry of Interior (CPAMI) and related agencies. The first phase construction of the NSTC is divided into indoor training section and outdoor training section. The outdoor training section includes baseball field, softball field and archery field maintenance project and PU surface renewal project for tracks and surrounding facilities. Progress is hastened and can be completed by the latter half of the year. Within the indoor training section, the SAC expects to invest NT 2.3 billion in constructing 2 training complexes (combat stadium and ball stadium). Currently, the detailed designs had passed evaluations and will have online invitation to tender in recent days.

Predecessor of the NSTC is the Zuoying Training Center, established in 1976. The NSTC bears the burden of training elite athletes and long-term development of focus disciplines. Over three decades old, stadiums and facilities within the Center are in dire need

of upgrade. It is hoped that through this project, a professional sports competition venue that imbued with unique Taiwan characteristics and design styles can be constructed, thus creating a comprehensive training environment that supports the training of athletes, complete with information and administration support. These measures allow Taiwan to be in trend with international standards, help nurture outstanding sports talents and enhance our nation's international competitive strength.

The training complex project was handled by the CPAMI. Through professional structural designs by the CPAMI that satisfy standards for international stadiums, the grandeur of the NTSC will be undeniable. The SAC requested that the design team consider the daily training needs of the athletes, as well as integrate concepts of energy conservation and carbon reduction in the designs, so as to minimize impact on the athletes and the environment during the construction process. The invitation to tender for the construction phase will begin recently, and if all goes well, completion of the project is estimated sometime in 2014.

SAC Minister Tai Hsia-ling expressed her regards concerning the efficiency of the project and accelerated administration process, and expressed her wishes that the project can finish tender successfully, creating a world-class international training stadium that completes on time and with quality that truly bears fruit to the earnest expectations of the sports sphere. 國訓中心第一期工程-綜合集訓館即將辦理招標施工

體育界引頸期待的國家運動選手訓練中心(以下簡稱國訓中心)，終於在體委會、內政部營建署及相關部會通力合作下，陸續展開訓練場館的興整建工程。國訓中心第一期工程開發區域分為「室內訓練區」及「戶外訓練區」。其中「戶外訓練區」為「棒球場、壘球場及射箭場整地植栽工程」及「田徑場跑道暨週邊設施 PU 面層更新工程」目前已加緊趕工中，今年下半年即可完工，供選手戶外訓練使用。體委會在「室內訓練區」預計以 23 億元打造 2 棟「綜合集訓館(技擊館、球類館)」，目前已通過細部設計審查，將於近期辦理上網招標作業。

前身為民國 65 年成立之「左營訓練中心」，擔負我國菁英運動選手訓練及長期培養重點發展項目的任務，成立迄今已逾三十餘年，其相關場館設施都已達一定年限，希望透過本次整建計畫興建具有台灣地域特色及建築設計風格的專業體育競技場地，以建構選手培訓、資訊科研及行政支援之完善訓練環境，使我國運動培訓機制與國際接軌，達成培育國家優秀運動人才，並提升我國選手整體國際競技實力。

「綜合集訓館」工程係由行政院體育委員會委託內政部營建署代辦，藉由營建署之工程專業建設符合國際標準的運動場館，並展現國家級訓練中心的氣度。體委會亦要求設計團隊必須兼顧選手日常培訓需求及納入節能減碳的設計概念下，減少興建過程對選手培訓及周圍環境的影響。綜合集訓館即將於近日辦理工程招標階段，若順利完成發包預計於 103 年即可完工。

戴主委對於本案能以趕工的精神有效縮短行政流程表示嘉許，並期許本案能順利“達陣”完成發包，如期如質提供選手國際一流的訓練場館，以符合體育界對嶄新國訓中心的殷切期待。(模擬圖如附件)

2012 Commendation Ceremony for Sports Activists Award

The 2012 Commendation Ceremony for Sports Activists Award was scheduled for 7th September 2012, with the hope that all spheres could actively nominate groups or individuals that for a long period of time had sponsored sports events or aided the promotion of sports.

To compensate these “behind the scenes” activists with more applause, respect and gratitude, the SAC began organizing the Sports Activist Award from 2009 onward; thus far, more than 142 enthusiastic sports organizations and individuals that actively sponsored and promoted sports had been commended. These recipients provided long-term funds to sports events and nurturing of athletes, as well as those who actually participate in the promotion of grassroots sports beyond their normal duties; even in the sponsor award category, there were many corporations that won three years in a row. It is hoped that through this kind of commendation, the public would be encouraged to continue their contribution to sports, and invigorated their participation in sports. Let the internal support for sports flow like a stream of river, never-ending and ever abundant, thereby molding a healthier Taiwan, and that the world will see the pride of Taiwan!

This year’s Sports Activist Award is divided into sponsorship (including gold, silver, bronze quality award and long-term sponsorship award), promotion (including gold, silver, bronze quality award) and special award. Corporations, organizations and individuals are all eligible for the award as long as they fulfill the requirements outlined in the Administrative Guidelines Governing SAC Sports Activist Awards. Those who pass evaluations will receive corresponding award; multiple recipients of the same award is possible.

Commendation period for the 2012 Sports Activist Award was until 31st May 2012. Related stipulations and forms can be found and downloaded from the SAC website (<http://www.sac.gov.tw/>). Please submit recommendation forms and related certification documents to the Department of Planning of the SAC (Contact: Ms. Tsai; telephone: 02-87711829; fax: 02-27520200).

All sorts of related training support and services were provided to athletes and coaches, such assisting training and participation throughout the country, providing sports injury prevention services in line with training demands and providing accommodation and consumable equipment during joint training sessions. These measures truly realize the government's welfare for the disadvantaged groups. It is hoped that the disabled athletes would become role models for the society in embracing outdoor life, enjoying nature and molding excellent international relations for the nation through sports.

The advancement of sports by encouraging public participation has one goal: to develop regular exercise habit in the disabled participants, and give them and the society a renewed vigor for life and vision for the future. We hope private corporations will continue their support and sponsorship for these valiant life warriors, becoming their pillar in their fight for glory on the international arena; we further hope that the general public will continue their support for these Olympic athletes with passion and love.

2012 Sports City Investigation Commences in June at Various Counties and Cities

The 2012 Sports City Investigation Plan handled by the SAC was commissioned to the Gallop Investigative Services Co. after completion of negotiations. The first consultation meeting was held on 23rd May with scholars and experts, with exchanges been made regarding the operative definition of population who regularly exercise. In light of the past Sports City Investigations, the definition for regular exercise is set as 333: at least 3 times per week, 30 minutes per time, reaching a heart rate of 130 bpm or strong exercise with sweat and pant. Based on this definition, the percentage of population who exercise regularly increased from 12.8% in 2003 to 27.8% in 2011. To align with international standards, in addition to the routine definition of 333, this year's plan will include 7330 (meaning exercise 3 times/week and 30 minutes/time) in its statistical analysis. Telephone interviews will be conducted from June to August 2012.

2014 ISF World Schools Badminton Championship to be Held in Taiwan – News of Good Tidings from the 2012 World Schools Badminton Championship

To facilitate the broadening of knowledge and synchronizing with the world, and to allow our youth to establish a global citizen mindset, measures were taken by the Sports Affairs Council of the Executive Yuan (SAC) to ensure their participation in multi-dimensional international cultural and sports exchanges that help expand our country's activity in the international arena. In 2000, the SAC counseled the Chinese Taipei School Sport Federation (CTSSF) in becoming an associate member of the International School Sport Federation (ISF). In 2001, the SAC continued to support the CTSSF in forming delegations and participating in various ISF events. In 2012, the SAC commissioned the CTSSF in sending delegations to compete in the ISF World Schools Table Tennis, Badminton and Volleyball Championships in Italy, Portugal and France respectively. In total, the delegations won 3 gold, 5 silver and 1 bronze medals (in the badminton championship alone, 3 gold and 1 silver medals were won). Not only do these events increased international competition experiences and exposure to exotic foreign cultures for our young athletes, they also enhanced our country's visibility with the ISF.

In the course of counseling the CTSSF in joining various ISF events, the SAC continue to fulfill its responsibility and duty as an international member – in 2011, the country was successfully attributed with the 2017 Summer Universiade, and the CTSSF successfully secured the hosting rights of the 2014 ISF World Schools Badminton Championship; subsequent preparation works are well under way.

In addition to commissioning the CTSSF in forming delegations to participate in ISF World Schools Table Tennis, Badminton and Volleyball Championships, the SAC continue to nurture sports exchange avenue for young athletes through the ISF by preparing for the upcoming 2014 World Schools Badminton Championship; ISF president, secretary-general, regional vice president for Asia will be invited to Taiwan, and observation delegation will be sent to the 2012 ISF World Schools Badminton Championship to further understand the workings of the event. The SAC hopes that through continuous and active interaction with the ISF, the road will be prepared for Taiwan to become an official member of the ISF. By means of observation of ISF events and passing on relevant legacy, Taiwan's hosting of the 2014 ISF

World Schools Badminton Championship will surely be a success.

103 年世界中學生羽球錦標賽在台灣開打－101 年世界中學生羽球錦標賽提前締造佳績

為增廣見聞與國際接軌，讓青少年朋友藉由多元化的國際文化體育交流，建立地球公民的宏觀思維，並開拓我國國際活動空間，體委會自民國 89 年輔導高中體總成為國際學校體育總會（ISF）的準會員，90 年起持續輔導高中體總組隊參加國際學校體育總會各項國際競賽活動，101 年度體委會委託高中體總分別派隊赴義大利、葡萄牙及法國參加國際學校體育總會世界中學生桌球、羽球及排球等 3 項錦標賽，總計榮獲團體 3 金、5 銀及 1 銅的佳績（本次羽球錦標賽更超越上屆成績榮獲 3 金、1 銀的佳績），不僅增加了我國青少年體育選手參與國際競賽的經驗，接觸不同國家的風土民情，同時也提高了我國在國際學校體育總會的能見度。

在體委會輔導高中體總多年來積極參加國際學校體育總會各項活動，善盡國際會員責任與義務，在 100 年底就在我國成功申辦到 2017 年世大運之後，我高中體總亦向國際學校體育總會成功申辦「2014 年世界中學生羽球錦標賽」主辦權，後續相關籌備工作正積極規劃中。

體委會說為持續耕耘國際學校體育總會青少年運動交流園地，101 年度除委託高中體總組隊參加國際學校體育總會世界中學生桌球、羽球、排球等單項錦標賽外，另為籌備 2014 年世界中學生羽球錦標賽作準備，將邀請國際學校體育總會會長、秘書長、亞洲區副會長等來台訪問，並組團觀摩 2012 年世界中學生羽球錦標賽，以利更深入瞭解賽事運作。體委會希望能藉由我國不斷與國際學校體育總會積極的接觸，早日促成我國成為該總會的正式會員，同時藉由 ISF 賽事觀摩，經驗傳承，讓我國能順利成功舉辦 2014 年世界中學生羽球錦標賽。

President Ma Ying-Jeou Presents Flag to the Chinese Taipei Delegation Participating in the 2012 30th London Olympic Games

總統與全體代表團人員合影

A group photo of President Ma Ying-jeou and the entire delegation

President Ma

Ying-jeou visited the National Sports Training Center (NSTC) in Kaohsiung on 19th July, to personally present the national flag to the London Olympic Games delegation, as well as a NT200,000 meal bonus. The 30th Olympic Games did not include two traditional sports that our nation had dominated in the past: baseball and softball; and the resulting delegation seemed

more miniature in comparison. Nonetheless, the President pointed out that with record-breaking performances in fields such as fencing, sailing, athletics and badminton, our nation's overall sports competitiveness is on the rise.

In addition to deep gratitude and admiration for the athletes during their preparation phase, the President quoted from the "New Life Perspective" by Luo Chia-Lun (a leading reformist in the 19th century) that the athletes can utilize their most savage bodies, most civilized minds and insurmountable spirit to face the Olympic challenge with all their might - seize the moment and strive for the highest honor. President further hoped that every member of the delegation would serve to be the best spokesperson for Taiwan's image, to demonstrate to the world Taiwan's amiability and cultivation; as for the administrative and medical support teams, the President also expressed his gratitude for their invaluable contribution during the training period.

馬英九總統為 2012 年第 30 屆倫敦奧林匹克運動會中華代表團授旗

馬英九總統 7 月 19 日前往高雄國家運動選手訓練中心，親自為我國參加 2012 年倫敦奧運會的代表團人員授旗，並致贈 20 萬元加菜金。本次倫敦奧運會取消了棒球及壘球 2 種我國傳統強項，使得我國代表團的人數及規模不若以往，但總統認為從擊劍、帆船、田徑、羽球等運動項目超越以往的成績表現來看，反而顯示我國競技運動水準的

全面提升。

總統除感佩選手在集訓備戰其間所付出的辛勞，並引用羅家倫於「新人生觀」的名言，期勉選手能以最野蠻的身體、最文明的頭腦和不可征服的精神，來面對奧運會的挑戰，全力以赴爭取獎牌，為國人爭取最大的榮耀，並期許代表團全體成員能扮演臺灣形象的最佳代言人，讓世界看見臺灣特有的友好與素養。對於集訓期間成功扮演後勤支援角色的行政及醫療團隊，總統亦表達慰勉之意。

First Phase Construction Project (Integrated Training Stadium) Completed for the National Sports Training Center Renovation Plan, with Actual Construction About to Commence Soon

The much anticipated National Sports Training Center (NSTC) Renovation Plan completed its First Phase Project (Integrated Training Stadium) on 3rd July 2012, under the

collaborative effort of the Sports Affairs Council and the Construction and Planning Agency, Ministry of Interior (CPAMI). The SAC commissioned the CPAMI to be in charge of this renovation plan, so that in their professional capacity, a sports stadium that fulfill international requirements and

demonstrate its magnificence could be completed. Under the harmonious efforts of both agencies, the plan was one month ahead of schedule. The plan spans 720 calendar days and is expected to be completed in 2014.

The first phase project includes construction of 2 ground-level buildings (7 storey-high) – the combat stadium and ball stadium. The combat stadium covers sports such as gymnastics, wushu, boxing, wrestling, fencing, karate, judo, taekwondo and weightlifting; the ball stadium covers sports such as basketball, volleyball, badminton, bowling, table tennis and handball; all in all, the stadiums cover training for 15 sports. All training spaces are designed in accordance with international standards and criteria, modeled with respect to the physical environment (sound, light, wind, nighttime lighting); concepts of energy conservation and carbon reduction are included in the design, as well as considerations for sports uniqueness, geographical grains and weather.

Predecessor of the NTSC is the Zuoying Training Center, established in 1976. The NTSC bears the burden of training elite athletes and long-term development of focus disciplines. Over three decades old, stadiums and facilities within the Center are in dire need of upgrade. It is hoped that through this project, a professional sports competition venue that imbued with unique Taiwan characteristics and design styles can be constructed, thus creating a comprehensive training environment that supports the training of athletes, complete with information and administration support. These measures allow Taiwan to be in trend with international standards, help nurture outstanding sports talents and enhance our nation's international competitive strength.

SAC Encourages the General Public to Increase Physical Activities and Implements Physical Fitness Examinations

To strengthen the physical fitness of the general public, the government should encourage more participation and provide relevant physical fitness examinations. Survey results indicate that the age group which exercise the least is the white collar workers in the 30~49 category; their 15.8% exercise rate is significantly lower than the national average of 27.85%. To demonstrate concern for this particular group, this year the SAC organized physical fitness examinations for employees and working population of six major industries: the education service, finance and insurance, accommodation and food services, sports and storage, wholesale and retail, as well as manufacturing. The examinations began in July and will last till November; 12 stations were established based on region and population density distribution. Each station is expected to complete at least 2,000 tests, with a total of 24,000 tests in all stations. Examination items include: physical composition, hip to waist ratio, one-minute sit-ups, sitting forward bend and three-minute stair-climbing. Those who participate in the examination process and fulfill the requirements (normal range in the Body Mass Index, and at least 2 passing grades in other items) will be awarded with a valuable fitness medal as a token of encouragement.

Signing of a LOI for Cooperation between the Competent Sports Authorities of Taiwan and El Salvador

In light of the diplomatic relationship between the Republic of China (Taiwan) and El Salvador, the Ministry of Foreign Affairs (MOFA) cordially invited Mr. Jaime Alberto Rodriguez, president of the Salvadoran Institute of Sport (INDES), with Minister Tai Hsia-Ling of the Sports Affairs

Council of the Executive Yuan (SAC), to sign a Letter of Intent (LOI) for Cooperation between the two sports administrations, as well as to honor each other with medals.

Mr. and Mrs. Rodriguez visited Taiwan from 27th to 31st August, and under due arrangements by the MOFA, they visited the National Sports Training Center, Kaohsiung World Games Stadium and a dedicated football field in Tainan City. In addition, president Rodriguez served as a professional player in Mexico's Liga MX, El Salvador's national football team and J League of Japan. He was part of El Salvador's 1982 national team competing in the FIFA World Cup. Further, Mr. Rodriguez was named member of the football commission of FIFA this year. The MOFA specially arranged a football match for Mr. Rodriguez to watch, to allow him to fully appreciate the government's effort in popularizing football.

Mr. Rodriguez also visited the Chinese Taipei Table Tennis Association, Chinese Taipei Volleyball Association and Chinese Taipei Judo Association to have an in-depth understanding of how sports is promoted in Taiwan. It culminated in a meeting with Minister Tai from the SAC, which entailed an intense discussion on how sports could serve as a medium of exchange between the two countries. After the discussion, both parties signed a LOI for Cooperation and exchanged medals of honor, in the audience of MOFA representatives, El Salvador ambassadors and domestic sports figures. Minister Tai presented the highest honor in sports – the Class One Sports Professional Medal – to Mr. Rodriguez as a token of gratitude for his continual effort in consolidating both nation's friendship; on the other hand, Mr. Rodriguez presented INDES's highest honor – the El Salvador National Sports Medal – to

Minister Tai for her unwavering friendship and contribution that ultimately led to this fruitful bearing.

The SAC stated that the visit by Mr. Rodriguez represented a high degree of willingness from both parties to seek possibilities in sports cooperation, which will eventually lead to the deepening of friendship between the government and people of both countries. It was hoped that with the LOI as a solid foundation, an official sports cooperation pact will soon come to pass.

台薩兩國體委會簽署合作交流意向書

應外交部邀請來台的我中美洲友邦薩爾瓦多體育委員會主席羅德里格斯 (Jaime Alberto Rodriguez)，今天與行政院體育委員主任委員戴遐齡共同簽署兩國政府間體育合作交流意向書，並互贈獎章。

羅德里格斯夫婦應中華民國政府邀請，於 8 月 27 日至 31 日訪台，期間在外交部的安排下，參訪國家運動選手訓練中心、高雄世運主場館、台南市專用足球場，另外，由於羅德里格斯主席曾為墨西哥職業足球聯盟、薩國國家足球隊及日航職業足球隊等隊員，曾於 1982 年代表薩國參加於西班牙舉辦的世界盃足球賽，並於今年初獲國際足球總會 (FIFA) 任命為理事會理事，外交部特別安排羅德里格斯主席觀賞體委盃足球賽，以充分體驗臺灣足球運動的推廣。

今天上午羅德里格斯主席參訪中華民國桌球協會、中華民國排球協會及中華民國柔道總會，深入瞭解我國推廣桌球、排球、柔道等運動，並拜會體委會主委戴遐齡，兩國體育最高首長就未來雙方運動交流進行熱烈討論。之後，在外交部代表、薩爾瓦多駐華大使及國內體育界人士見證下，雙方共同簽署台薩體育合作交流意向書及互贈獎章，戴主委頒贈我國最高體育獎章「一等體育專業獎章」予羅德里格斯主席，以表彰渠鞏固兩國體育界友誼之努力；羅德里格斯主席則致贈薩國政府體育最高勳章「薩爾瓦多國家體育勳章」予戴主委，以表彰戴主委對於兩國體育界友誼及合作之貢獻。

體委會表示，本次羅德里格斯主席來會拜會，雙方表達強化雙邊關係的高度意願，尋求加強體育方面合作的可能，以加強兩國政府及人民間既有的情誼，期盼在此體育合作交流意向書的基礎下，未來能早日促成台薩雙方簽署兩國政府間體育合作協定。

More Than 80% of the Public Supports the Hosting of the 2017 Summer Universiade and Future International Multi-Sport Events

To further understand how the general public and civic sports associations feel and respond to the country's bid to host international multi-sport events, and compile the results as reference for policy evaluations and implementations, the SAC conducted a series of telephone interviews on the general public and sports professionals from 24th June (Sunday) to 1st July (Sunday) 2012. There were 3,749 effective samples from the general public, with a sampling error of $\pm 1.6\%$; there were 200 effective samples from sports professionals.

Overall, though the level of recognition of the general public was considered lower

than those of sports professionals, more than half of the general public still knew about the 2012 London Olympic Games and the 2017 Summer Universiade in Taipei City, which indicated their interest in such multi-sport events. The general public and sports professionals all had high expectations for the Chinese Taipei delegation (>67%); while taekwondo was considered to be the most favored sport. At the same time, the general public and sports professionals showed tremendous support for the 2017 Summer Universiade, acknowledged the government in bidding for international multi-sport events, and generally satisfied with the government's results thus far. The Five Municipalities were generally considered by most as suitable locations for the hosting of large international multi-sport events; and the Asian Games was thought to be an indispensable event that the government should strive to host.

In the future, it was expected that support would be provided by the general public in the hosting of the 2017 Summer Universiade or any bid for international multi-sport events, so continued communication with the public was important – to harness the energy for sports for all that will generate stronger public consciousness and support; in terms of international tourism (consumption), gearing up for sports will manifest Taiwan to the world and enhance our country's image. Suggestions provided by sports professionals could be valuable, so in-depth planning and analysis on how to strengthen overall measures could go a long way in maximizing the efficacy of hosting international multi-sport events.

Groundbreaking Ceremony for the First Phase Project of the National Sports Training Center Renovation Plan

The much anticipated First Phase Project of the National Sports Training Center (NSTC) Renovation Plan commenced its groundbreaking ceremony on 10:30 a.m. on 15th

August 2012. Minister Tai Hsia-Ling of the Sports Affairs Council of the Executive Yuan (SAC) led a delegation of relevant personnel and representatives from the Construction and Planning Agency, Ministry of Interior (CAPMI), architects and contractors to give blessings to the project, as well as to witness a historic moment in development of sports facilities.

This project was commissioned to the CAPMI by the SAC, and entailed the construction of two seven-storey buildings, namely the Combat Stadium and Ball Stadium. Combat Stadium includes gymnastics, wushu, boxing, wrestling, fencing, karate, judo, taekwondo and weightlifting; the Ball Stadium includes basketball, volleyball,

badminton, bowling, table tennis and handball; both stadiums can cater to 15 sports in total. All training spaces were designed in accordance with international standards and criteria, modeled with respect to the physical environment (sound, light, wind, nighttime lighting); concepts of energy conservation and carbon reduction were included in the design, as well as considerations for sports uniqueness, geographical grains and weather. The project is scheduled for completion in 2014.

Predecessor of the NTSC is the Zuoying Training Center, established in 1976. The NTSC bears the burden of training elite athletes and long-term development of focus disciplines. Over three decades old, stadiums and facilities within the Center are in dire need of upgrade. It is hoped that through this project, a professional sports competition venue imbued with unique Taiwan characteristics and design styles can be constructed, thus creating a comprehensive training environment that supports the training of athletes, complete with information and administration support. These measures allow Taiwan to align with international standards, help nurture outstanding sports talents and enhance our nation's international competitive strength.

Flame Ignites at the Opening Ceremony of the 2012 Sports for All Games

The 2012 Sports for All Games was hosted by Nantou County for the first time in the history of the Games. Nantou County is integrating local agriculture, tourism, and cultural

industries and working toward internationalization, exquisiteness, localization, uniqueness and tradition, backed by the central theme of diversity, richness, creativity and vigor. The hosting of the Games truly demonstrated its vastness and varied aspects of the county.

The igniting of the flame was held at the epicenter monument at Puli Township of Nantou County, also renowned as the center of Taiwan (aka the heart of Taiwan). The flame of the 2002 Asian Games was ignited here simultaneously with countries across Asia, signifying the intention of beginning from the heart. Nantou County Government held several activities with this location as commencement point, thus making it a world renowned location. This year's hosting of the Sports for All Games hopes to inspire a vibe that will spread throughout the country, ushering in a phase of sports for all.

The lighting of the flame began at the downtown district of Puli Township from 24th October onward, and it toured the country on a round-island trip, from the north to the south (including off-shore counties like Penghu, Kinmen and Matsu). Once back at Nantou, the torch will travel all 13 townships in Nantou County. At the opening ceremony, representatives from all age groups and sports disciplines will successively carry the torch into the stadium and ignite the Flame of Victory.

此次聖火引燃地點在南投縣埔里鎮地理中心碑，也是台灣的最中心點(被稱為台灣之心)。2002 亞運聖火曾在此與亞洲各國，同步點燃。代表從『心』出發之意念；南投縣政府辦理活動多次以此碑為出發點，是國際知名景點，本次承辦 101 全民運希冀以「台灣之心」地理中心碑引火儀式，開啓全民樂活脈動。

聖火引燃後，將先在埔里市區繞街造勢，於 10 月 24 日起，由南而北至全國各縣市（含澎湖、金門、連江）展開 8 日的聖火環島繞行邀請。回傳南投後，將繞行南投縣 13 鄉鎮市。開幕時，由代表各年齡層及運動項目選手傳入體育場，點燃「勝利之火」。

Sports Makes Tourism More Exciting!

To encourage cross-industry alliance between sports service industry and tourism, the Sports Affairs Council of the Executive Yuan (SAC) once again exhibited at the 2012 Taipei International Travel Fair (ITF)! To deepen the public's experience that sports can indeed make tourism more exciting, the SAC continued last year's tradition and established a Sports Tourism Zone which exhibited 6 unique Excellent Sports Tours, carefully selected by the SAC to allow the general public an opportunity to taste the one-of-a-kind sports tourism experience. The tours included: Kinmen Fun Ride, Hualien-Taitung Experience, Amphibious Play, Dual-Rail Round-Island, Love for the Mountains and Seas and Kenting Ocean Experience.

Promotion of this policy is to facilitate excellent sports consumption by the general public, because the introduction of professional sports services can garner the feeling of top quality through experiencing sports; therefore, the SAC designates When Sports Meets Tourism as its theme, with the hope of creating a multi-faceted professional sports service model through cross-industry integration. This also increases employment opportunities for professional sports talents.

The aforementioned 6 Excellent Sports Tours encompass the planning of popular and interesting sports (such as cycling and water long-swim event) through the utilizing of tourism resources of national railway and local places (such as river traversing, snorkeling and water sports, etc.). These facilitate the fruition of fresh and exciting sports tours that bring the journey of exploration from the north of Taiwan to its south, even to faraway places like off-shore islands. The public can also enjoy incentives that are not available online because of subsidy from the SAC. Though the SAC's subsidies are target at travel agencies, the amount are calculated based on sports expenditures and sales, which means that travel agencies must optimize sports services in order to receive more subsidy from the SAC. This is a triple win event, benefiting the public, the tourism industry and the sports service industry.

運動讓旅遊更精采！

體委會為推展運動產業，鼓勵運動服務業與觀光旅遊業之異業結合模式，今年已在 2012 年 ITF 台北國際旅展再度亮相！體委會為了讓民眾體認「運動」可以讓「旅遊更加精采」，延續去年將在旅展現場設置「運動觀光主題館」，輔導旅行業者在該主題館展售由體委會所遴選出的 6 件適合國內民眾參加的「優質運動遊程」，包括「金門單車逍遙遊」、「單車花東縱騎」、「水陸兩棲鐵泛玩」、「兩鐵環島」、「戀戀山海采風活動隊」及「墾丁海洋水域活動隊」等，讓民眾在運動觀光主題館有機會搶到好康並體驗不一樣的運動旅遊。

推動這項政策是要帶動民眾享受優質的運動消費，因為經由運動專業服務的介入，可以讓消費者感受「運動」所創造出來的「高價值」，因此，體委會選擇讓「運動遇見旅遊」，希望藉由跨域的結合來建立多元運動專業服務模式，也可增加專業運動人才就業管道。

前述 6 件遊程大多針對熱門有趣的運動項目（如騎單車及海上長泳運動）規劃，並結合全省鐵道及各地特有的旅遊資源（如溯溪、浮淺及水域運動等），設計出多種新鮮好玩的運動遊程，帶領大家探索臺灣從北到南再至離島的綺麗美麗風光。民眾在 2012ITF 的「運動觀光主題館」購買各項遊程也可獲得在其他通路無法享受的優惠價格，因為體委會提供補助，雖然體委會補助對象是旅行社，不過因為補助金額要依照運動的支出與銷售的數量核算，所以旅行業者一方面必須將運動服務高質化，另一方面也要把補助金回饋給消費者才能獲得較高的補助，因此，這是民眾、旅行業及運動服務業 3 贏的活動，也請大家多多支持體委會推行的新政策。
